EDUCATION

Information Security (Bachelor's degree)

University of Library Studies and Information Technologies

10/2021 - 06/2025

Sofia

Secondary School

High School PMG "Yane Sandanski"

09/2015 - 05/2019

Gotse Delchev

WORK EXPERIENCE

Game Developer and Linux Host Manager

Freelancer

12/2019 - Present

Sofia

Personal Project: FiveM Development & Linux Server Admin

- **Developed, optimized, and debugged custom FiveM server scripts (Lua)** to enhance gameplay and server functionality.
- **Designed, deployed, and administered secure Linux hosting environments** (e.g., Ubuntu/Debian) for project servers.
- **Performed regular server maintenance**, including software updates, configuration management, performance tuning, and security patching.
- **Managed server security**, applying best practices for firewalls, user access control, and vulnerability mitigation.
- **Monitored server resources and performance**, implementing proactive measures to ensure stability and prevent downtime.
- **Conducted testing and resolved diverse technical issues** related to server configurations, network connectivity, and application compatibility.

Manager/Bartender

Restaurant "Ezeroto"

07/2018 - 09/2024

Gotse Delchev

- Delivered **exceptional customer service** and managed daily financial operations (transactions, reporting).
- **Led, trained, and scheduled** service staff, coordinating with kitchen/FOH for efficient delivery.
- **Resolved customer concerns and troubleshooted operational issues** to maintain seamless service.

SKILLS

Linux Admin

Server Monitoring

Scripting (Py/Lua)
